Title	Bylaw 1609/23 – Amendment to Land Use Bylaw 1385/17 – Sturgeon Valley Land Use Districts – First Reading
Proposed Motion	That Council give first reading of Bylaw 1609/23.
Administrative Recommendation	That Council give first reading of Bylaw 1609/23, to allow for the proposed amendments to proceed to a Public Hearing to receive feedback from affected parties.
Previous Council / Committee Direction	<p><u>September 14, 2021 Regular Council Meeting</u> Motion 449/21: That Council give third reading of Bylaw 1555/21 as amended.</p> <p><u>July 10, 2017 Regular Council Meeting</u> Motion 351/17: That Council give third reading to Bylaw 1385/17, Land Use Bylaw.</p>
Report	<p><u>Background Information</u></p> <ul style="list-style-type: none"> Future development in the Sturgeon Valley South requires key amendments to the County’s Land Use Bylaw that set the foundation for all future activity. The proposed amendments are within two categories: <ul style="list-style-type: none"> The creation of an Urban Reserve Overlay, designed to allow for interim development activity, while protecting the lands for development consistent with the Sturgeon Valley South Area Structure Plan (SVS ASP). The creation of two new hybrid form-based land use districts, that most new residential development will fall within. <p><u>Urban Reserve Overlay</u></p> <ul style="list-style-type: none"> Land within the SVS ASP boundaries is subject to development pressures. The intent of the overlay district is to ensure that some development can occur prior to final development interest, while remaining consistent with the vision of the SVS ASP. The purpose of the SVS ASP is “...to guide the development of the Plan area in an orderly and phased manner, and in a direction that provides a framework for complete communities. The Plan is intended to drive development in the Sturgeon Valley in a contiguous, compact manner,

with transitions that are sensitive to existing landowners, surrounding agricultural areas, and the metropolitan boundaries.”

- Sturgeon County requires regulatory tools to ensure that development within the plan area is consistent with the scale and densities as required by the SVS ASP, which itself is consistent with the policies of the Edmonton Metropolitan Region Growth Plan (EMRGP).
- Given the timescales involved with complete build-out of the plan area, and that some parts of the plan area will not be developed for decades, applying an Urban Reserve Overlay would allow for interim development of a nature that would not compromise the vision of the intent of the SVS ASP and any subsequent sub-plans. An Overlay District allows for additional regulations as it relates to a geographic area.
- Key components of the Urban Reserve Overlay include:
 - Applicable to all lands within the SVS ASP. The existing multi-lot residential subdivisions of North Point, Skyglen Air Park, and Glenview Acres would be exempt.
 - Proposed development identified as a permitted use within the underlying land use district would be considered discretionary.
 - Rezoning of parcels would still be allowed, subject to Council approval, but any subsequent development would be subject to the term limits as outlined below.
 - Development permits issued in areas within an approved sub-plan would be for a 5-year period, at which time the applicant would need to re-apply.
 - Development permits issued in areas outside an approved sub-plan would be for a 10-year period, at which time the applicant would need to re-apply.
 - Subdivision would only be considered if the proposal is consistent with the SVS ASP and any subsequent sub-plan and must be accompanied with a rezoning application.
- An example of the type of development that could be considered within the Urban Reserve Overlay might include RV storage. This type of development typically does not require permanent structures nor connection to municipal servicing. The development could be issued with a term-limited permit, the length of which is dependent on whether the parcel is located within an approved sub-plan. As future development approaches, the permit for the RV storage would be allowed to lapse and the lands could then be utilized for development consistent with the vision of the SVS ASP.

Form-Based Code Land Use Districts

- The SVS ASP policy framework contemplates a transition in densities from low / country residential density established communities within the Sturgeon Valley Core towards higher / urban density development within the Sturgeon Valley South. To this end:

- Lands adjacent to established communities in the Sturgeon Valley Core are required to adopt the R7 – Transitional Valley Residential District (being established via Bylaw 1620/23). This is in alignment with the Sturgeon Valley Core Area Structure Plan and is based on the maximum density of 20 du/nrha (dwelling units per net residential hectare).
- As development moves further south, densities of 35 du/nrha and greater are required. Additional regulations will need to be developed eventually for the lands designated 42 du/nrha.
- To accommodate the required densities within the SVS ASP (and ultimately the regional Edmonton Metropolitan Region Growth Plan), a comprehensive study was undertaken to assess various approaches to implement the vision and policy within the SVS ASP. This study considered:
 - different communities with similar densities and regulatory frameworks;
 - input from development experts, Council, and the development industry; and
 - how the private and public land interface will support “...a place where people want to visit, play, work, live and be part of a strong community.”
- Considering the above, a hybrid form-based code was recommended to guide development on lands with densities of 35 du/nrha and greater.
- This approach focuses strongly on the design elements between the private and public realm with the intent to avoid creating residential communities that are repetitive in their form/design or are dominant in their appearance from the public realm. Another key element is the creation of safe, functional, and attractive walkable/cycling corridors throughout varied communities.
- This approach has enabled the creation of land use regulations that provide flexibility for the development industry by being able to meet the density targets while reducing the need to create more than two new districts. A greater focus has been placed on meeting Council’s vision while respecting the interests of the development industry and area residents.

External Communication

- Landowners and development industry representatives in the Sturgeon Valley South have been directly engaged, have reviewed the proposed bylaw amendments, and have expressed support to date.

	<ul style="list-style-type: none"> Administration will ensure public notification and advertising for the public hearing are completed in accordance with relevant legislation and County processes. <p><u>Relevant Policy/Legislation/Practices</u></p> <ul style="list-style-type: none"> The <i>Municipal Government Act (MGA)</i> authorizes Council to establish and amend bylaws. Section 640(1) of the MGA requires every municipality to pass a Land Use Bylaw. Section 692 of the MGA requires that a municipality hold a public hearing prior to giving second reading to a proposed bylaw. Policy 6.2.1.1 of the SVS ASP requires the County to “...work with landowners/developers to create new land use districts and regulations within the Land Use Bylaw that accommodates the required densities.” Policy 6.3.1.2 of the SVS ASP requires the County to “...work with landowners/developers to create new subdivision regulations within the Land Use Bylaw that accommodate the required densities.”
Implication of Administrative Recommendation	<p><u>Strategic Alignment</u></p> <p>Planned Growth – The proposed amendments will put in place the controls to help ensure the vision of the SVS ASP is met, while maintaining a flexible process – important to market alignment and innovation.</p> <p>Thriving Communities – The proposed amendments will set clear expectations for Administration, residents, and developers by way of supporting the long-term vision of the SVS ASP.</p> <p>Operational Excellence – The proposed amendments are consistent with supporting future development opportunities within the Sturgeon Valley.</p> <p><u>Organizational</u></p> <p>The proposed amendments will ensure that Administration is ready to contemplate development consistent with the vision of the SVS ASP.</p> <p><u>Financial</u></p> <p>The proposed amendments will help ensure that only development consistent with the SVS ASP can proceed, helping to ensure the provision of relevant infrastructure aligns with development timelines.</p>
Alternatives Considered	<ol style="list-style-type: none"> Council could defeat the motion, resulting in the status quo. Council could defeat the motion and direct Administration to seek an alternative approach that differs from the status quo and the proposed motion.
Implications of Alternatives	<p><u>Strategic Alignment</u></p> <ol style="list-style-type: none"> The Land Use Bylaw would lack clarity and would be misaligned with the SVS ASP.

	<p>2. Strategic alignment implications would depend on the direction provided by Council.</p> <p><u>Organizational</u></p> <p>1. Administration would continue to interpret current applicable policies and regulations as they pertain to subdivision and rezoning within the SVS ASP.</p> <p>2. Organizational implications would depend on the direction provided by Council.</p> <p><u>Financial</u></p> <p>1. Infrastructure spending may be required in advance of anticipated timelines.</p> <p>2. Financial implications would depend on the direction provided by Council.</p>
Follow up Action	<p>1. Schedule a Public Hearing with respect to Bylaw 1609/23 (Planning and Development Services, March/April 2023).</p>
Attachment(s)	<p>1. Attachment 1: Bylaw 1609/23</p> <p>2. Attachment 2: Schedule A – Part 13 Sturgeon Valley South</p> <p>3. Attachment 3: Schedule B – UR – Urban Reserve Overlay</p> <p>4. Attachment 4: Schedule C – Urban Reserve Overlay Map</p>

Strategic Alignment Checklist

Vision: *Offering a rich tapestry of historical, cultural, and natural experiences, Sturgeon County is a municipality that honours its rural roots and cultivates desirable communities. Uniquely situated to provide world-class agricultural, energy, and business investment opportunities, the County prioritizes responsible stewardship and dreaming big.*

Guiding Principles: Collaboration | Accountability | Flexibility | Excellence | Safety | Future Readiness | Affordability | Innovation

Community Outcome	Not consistent	Consistent	N/A
Planned Growth
