

Braun Village Park

This design provides a range of manicured and naturalized open space. The engagement program identified a playground for children aged 5-12 years as a priority, along with a multi-sport court. Site furniture will provide important seating for relaxation and day-use picnics.

Future phases would include a nature trail network that passes through existing mature forested areas and naturalized grass areas. This would formalize some of the current non-improved trail alignments currently used on this site.

OVERALL CONCEPTUAL DESIGN

LEGEND/PROJECT PHASING

Phase one

- 1 Sport court - 2 pickle ball courts
- 2 Sport court - 1 basketball half court
- W Bench seating (4)
- W Waste receptacle (1)

Phase two

- Proposed large canopy trees
- Proposed screen planting
- Mowed grass area (existing)
- Drainage swale (existing)
- 2.0m wide gravel trail
- 3 Playground for children ages 5-12
- W Picnic table seating (2)
- W Waste receptacle (2)

Phase three

- 4 Nature trail through existing treed area
